

Citizen's Oil Co-op

Website Update Summary

Prepared for: Adrian Hutson, Meredith Wilson, Rosie Stanko

Prepared by: Adam Chain

Date: August 11, 2026

Based on: Multiple properties screenshots (Aug 5) and Home / Services page edits (Aug 6)

This summary lists the updates now implemented on the site. It is organized to match the feedback and screenshots you sent.

1. Multiple Properties

Implemented the Approach-style model from the Ken Walker screenshots: one paid primary property, with additional properties as free / lifetime memberships linked to that primary.

What staff can do

- **Add Property** button in the admin workbench creates a linked property record under the current membership.
- New property records are marked **Lifetime / free** automatically.
- Payment notes are set automatically (for example, “Primary property / 76 Pawnee Road” and “2nd property”, “3rd property”, “4th property”).
- Linked-property chips appear under Member Identity so staff can jump between a member’s properties.
- Primary vs additional property badges display on the record.
- Delete on a linked property is labeled **Delete Property**.

Billing behavior

- Annual dues bill on the **primary** property only.
- Additional / linked properties are waived each year (free membership linked to the primary).
- The Lifetime checkbox in the workbench stays in sync with June billing.

Member-facing note

- Account page copy now states that additional properties share the membership and renew once per year on the primary address.

2. Home Page

Implemented the Option B hero and the polishing edits from your screenshots.

Hero

- Shipped **Option B** only (large price above the headline). Layout gallery removed.
- Removed the “This week’s Co-op price” label above the price.
- Small text under the price now reads: **Average heating oil price week of [date]**.
- Date continues to come from the weekly oil-price update in admin.
- Truck / house hero image reduced slightly in size.

Three steps

- “Saving starts in three simple steps” banner green matched to the Join Now / logo accent green.
- Each step box keeps only the bold title text (body copy removed as requested).
- Step titles:
 - 1 — Join Citizen’s Oil Co-op
 - 2 — We connect you with a participating company
 - 3 — They call you to set up service under Co-op pricing
- Step title font increased and centered so the three boxes fill space evenly.

Savings and “Why choose”

- Eyebrow text changed from “Real savings, real results” to **Saving More. Together.**
- Trimmed redundant savings copy under the \$450–\$600 figure.
- Removed the **24/7 emergency** icon and text (so the Co-op is not misrepresented).
- Local business line now reads: **Participating companies near you!**
- Family photo left in place for a later final pass, as noted.

3. Services Page

Discounted Heating Oil

- Last sentence now reads: “You become a customer of the company to which you are assigned — the Co-op is here to help if you have service or pricing questions.”

Electricity Supply Options

- Title kept.
- Copy: “Click here to see current rates available from our participating electricity supplier.”
- Button / link to: <https://get.thinkenergy.com/oilcoop>
- Additional line: “We want our members to get the best rate. Click here to see electricity rates outside of the Co-op.”
- Button / link to: <https://www.energizect.com/>

Home and Auto Insurance

- Title kept (wording: Home and Auto Insurance).

- Copy: “We have partnered with Bearingstar Insurance to offer members discounted rates on auto and homeowner’s insurance.”
- Button: “Click here to request a free quote!” — opens an email to the office so you are notified of the request.

Solar Consultations

- Title kept.
- Copy: “Members who enroll through the Co-op receive a \$500 check upon completion of the solar panel installation.”
- Button: “Click here to request a free consultation.” — notifies the office by email.

Bioheat

- Kept the title and opening description.
- Section now ends at: “Available in many Connecticut towns.”
- Removed the “where it isn’t / rallying interest...” sentence.

Home Energy Audits

- Kept the title and first sentence about NESE / copay.
- Second sentence now: “Audits are an invaluable way to reduce heat loss for your home and to access rebates on follow-up improvements.”
- Button: “Click here to schedule an audit.” — notifies the office by email.

Local Partner Network

- “We recommend the best participating company based on your location, pricing, and service preferences.”
- “They’ll call you and set up your account at Co-op pricing.”

4. Still open / later

- Replacement photo for the savings-section family image (not selected yet).
- Any additional minor touch-ups from Rosie / Adrian’s full site review.

How to review: Please check the live Home page, Services page, and admin workbench (Add Property + linked property navigation / Payment History notes). Reply with any final wording tweaks and we will lock these pages for launch.
